Results

Patients are responsible for making a follow up appointment after having a blood test, x-ray or other tests.

If the Doctor needs to see you following a test, a receptionist will call and advise you to make a follow up appointment.

You will be advised of any urgent result by phone. Results will not be given over the phone.

Emails

Only appropriate non-clinical matters are dealt with via email exchanges. Consulting or advice services are not conducted by email, this must be communicated face to face by a medical practitioner.
